Keith from Flex Discos was amazing and I couldn't recommend him more. Even after such a long day (as our wedding started quite early) he managed to keep everyone up and dancing till the late hours. Thanks Keith!

Keith from Flex is the most versatile DJ I have ever met and I've met a fair few in my time! Very professional manner, great to deal with and an encyclopaedic knowledge of music all roll together to make for a brilliant experience, I won't recommend anybody else to friends for functions.

Keith was the DJ for our wedding reception and he did an excellent job. He accommodated all tastes and the dance floor was never empty. I would highly recommend him for your own big day.

Thanks again Keith!

"Thank you for making my 50th Birthday party go off successfully! I've had amazing feedback from guests who raved about the playlist - My requests, feedback and overall thoughts about how the music should feel was taken into account, and the crowd responded. From turning up super-sharp and liaising with the venues' in-house tech, to dealing with my off schedule itinerary and informing and responding to the guests- top class service until the very last bow off the dance floor. No fuss or drama - which made it a huge part of my night that I had zero concerns about. Full marks"

"I hired Keith after he DJ'd at my sister-in-laws wedding as I knew then he was fab."

I hired Keith after he DJ'd at my sister-in-law's wedding as I knew then he was fab. I've lost count of the comments my husband and I have received, both on the night and following our wedding, about how good the music was and asking who our DJ was. People I know who are getting married and having a band are thinking of switching over. The dance floor was chockablock the whole night, people hoarse with singing along to the tunes and he catered for everyone – from Scottish country dancing to soul music, sixties to pop and old school house. Fantastic and no one wanted the night to end. I can't recommend Keith enough, great lighting, great interaction at just the right level and very decent price. I can't recommend him enough.

"The disco was amazing – all our guests have commented on the time that they had – and how good the disco was."

We booked Flex after going to another wedding where he was playing. The service Keith provided for us was first class. All communications were professional and informative. Keith spent time with us before the wedding making sure that we were happy with everything for our day. On the day – despite our wedding running late, Keith was able to set up quietly and efficiently. The disco was amazing – all our guests have commented on the time that they had – and how good the disco was. Keith played a wide variety of the music people wanted to hear and dance to. The floor was full from the first song to the last. We were absolutely delighted with the first class service and the disco that was provided. I would, and already have, recommend Keith and Flex to anyone that was wanting a disco, either for a wedding or for any other party. Thanks so much for making our day so amazing. It topped off the best day of our lives in style.

Hi Keith,

I just wanted to write you a quick email to say thanks again for being the DJ at our wedding last Saturday. As you know, I had a great time dancing along with my friends and relatives, and everyone loved the music. I was so pleased at how packed the dance floor was all night. The lighting looked great too, it really complimented the classy interior of Balmule House.

Thanks again,

Lindsey [REDACTED]

Hi Keith,

We will get in touch properly to thank you when we get back from the honeymoon, but for now myself and John just wanted to send you massive thanks for your hard work Saturday night. I don't think you need us to tell you it was awesome, it absolutely made our night. Our guests were blown away! I felt like we hassled you a bit at the end of the night to do more when you were already wrecked, but it was only because we never ever wanted it to end..!

Thanks again Keith,

Aisling and John

Hi Keith,

I just wanted to thank you again for providing such a good soundtrack to my birthday.

I had a great time, and I think everyone enjoyed the indie tunes.

The lighting and sequencing were first class.

Thanks again,
Cat

Des and I booked Flex for our DIY marquee wedding based on a recommendation from another wedding. Everything was brilliant throughout. Keith was extremely professional and knowledgeable and provided helpful advice during the planning, not just about the music and dancing, but also the logistics for the day. On the day, he took care of all our audio needs, including mics for speeches and my daughter singing with piano, as well as the fab disco and lights. Keith took input on our music tastes and requests from our guests in advance, then on the night incorporated those along with what he could see was getting everyone dancing, which worked perfectly. Our friends and family had a fantastic time and we received many enthusiastic comments about how great the disco was. For us it was the icing on the cake of our perfect day and would like to thank Keith for helping to make our wedding so special. We highly recommend Keith and wouldn't hesitate to book him again.

David and I hired Keith for our wedding at Fingask last week. We were not sure of music and had a varied group of guests. Keith catered for everyone and could not thank him enough for his work on the day. and would thoroughly recommend him.

Hi Keith

Just wanted to say a huge thanks again for doing such an excellent job last night...the evening was fantastic and EVERYONE has texted/mailed today saying how much they enjoyed the music and 'what a great DJ' we had. The Cafe staff even commented what a great time they had had!

Looking forward to finding an opportunity to recommend you to others up here in Aberdeen. Hope the trip back down to Dundee wasn't too painful at whatever time of night you eventually made it back!

Thanks again, Keith, for making my birthday a very memorable one...

Best regards,
Tim
